Less is more.

Organic fig delicacies, made with only what matters.

Separating the essential from the accessory

Each product shows exactly what goes into it, and nothing else.

THE ESSENTIAL

- Fruit from our own farm
- Organic agricultural ingredients
- Fair-trade chocolate and sugar
- Simple recipes, the old way

THE ACCESSORY

Of the fig, only the stem is left

As in our grandmother's kitchen, nothing goes to waste. Everything is transformed.

1 · Fresh

Perfect. We export it.

2 · Too ripe to export

We make jam or chutney.

3 · When export doesn't pay

The fig stays on the tree and dries in the sun.

4 · Dry with holes

We make spicy fig halves.

5 · What's left

We turn it into truffle paste.

In the end

Only the stem is left.
